ABOUT Genesis Block company

Genesis Block is the international system integrator and fintech software developer in the field of payment systems, municipal services, billing, mobile applications, websites, blockchain solutions. Our brand Genesis Block unites companies, services and developers since 2010.

The core of the managing team were at the roots of e-topup services, including self-service ATMs for top-up (QIWI). Our high skilled managers worked in such companies, as CyberPlat, QIWI, W1 from the very beginning of electronic top up business in Russia.

Since 2010 we develop our software solutions for payments system, e-top up providers, payment service providers, banks, commerce, communal and municipal services. Our software is working on thousands of points, such as self services kiosks, POS, mobile apps. We have successful experience distributing out software solutions to Turkey, Spain, UAE, Saudi Arabia, Turkmenistan, Lithuania, Kazahstan

Our services quality is poven by the international ISO standards certification. We are included into the Russian software developers' Association RUSSOFT. Genesis Block regularly acts as main sponsor and speaker at international banking and financial conferences like IFIN and ABA (All Banking Automatization). We are the accredited IT company of the Ministry of Communications and the member of RACIB (Russian Association for Cryptocurrencies and Blockchain). Since the 2020 we have our own dedicated TV show at popular Russian TV PROBUSINESS. We are the official authorized integrator of the largest international lowcode BPM / CRM platform Terrasoft (CREATIO).
